

## Values of CPASS Stakeholders

### RESPECT

Treat everyone with dignity and respect.

All aspects of a person's life are important.

Accept people as they are, as part of creation, none perfect, everyone open for improvement.

Seek, encourage and embrace diversity.

### COMMUNITY

We all have the right to be an integral part of the community, and a responsibility to one another.

We have a responsibility to get involved.

We have to provide quality training and support.

### COMMUNICATION

All people have a voice, and no one's idea is wrong.

People should feel comfortable to share.

Ask questions and then LISTEN, talk story style.

### CHOICE

Everyone can make choices and their choices are valued.

Thinking outside the box is needed for flexibility.

Opportunities for increased choice need to be sustainable.

### PARTNERSHIP

Work with people unconditionally.

Work together and support each other.

Have an open mind and get feedback on how we can improve.

### PASSION

Bring love and enthusiasm to the project.

Share our commitment with others.
